MOHONK DISCUSSING HAWAII HUNDREDS OF QUAKE VICTIMS RUSSIANS HAVE NOT YET PASSED FEDERAL IMMIGRATION EXAM. ISLAND PEOPLE ATTEND CONFERENCE

(Special Cable to The Star.)

QUETTA, Baluchistan, October 22.—A series of violent earthquakes has spread death and terror throughout this district and in neighboring sections of Baluchistan.

Many towns and villages have been obliterated, in some cases there remaining no sign of buildings having stood where once a village thrived.

Reports from various sections tell of the ruin of roads, the tumbling of buildings and the death of whole families.

It is too early to estimate the number of those who have been buried in the ruins or who have been killed by falling falls, though it is certain that the list of fatalities will reach into the hundreds.

DANISH CABINET RESIGNS

(Special Cable to The Star.)

COPENHAGEN, October 22.—The Danish cabinet has resigned.

WANTS NEW LAND SCHEME ADOPTED

Senator McCarthy, introducer of the Democratic land bill in the last Senate, has a new land law which he may bring forward in the coming special session of the legislature. It provides for the appointment of a commission from Washington, to investigate the island conditions and report to the next regular session of the legislature.

"I think this special session should provide money for an independent American commission to come here and study our conditions," said McCarthy, "with a view to drafting a land law to suit the needs of the Territory. What is needed is a thorough and impartial study of the conditions, by experts."

SIBERIA HELD FOR SICK MAN

LANDED AT LAST MOMENT IN HOPE OF SAVING THE MAN'S LIFE.

Pacific Mail Steamship Siberia was fifteen minutes late in getting away for San Francisco this morning on account of a case of sickness among her crew, one of the members of which has for a day or two showed signs of increasing fever, yesterday having to be watched lest he do harm to his fellows, such was the form of delirium taken by the unfortunate.

It was thought last night that it might be necessary to put the patient ashore here for treatment, for he might not live to reach San Francisco if he was kept aboard, and this morning, just before the scheduled time for the departure of the Siberia, a medical consultation was held and the patient was lowered over the off-shore side and transferred ashore. It is not thought that his affliction is anything to endanger the health of the community, but the man was landed for his own sake.

RUSSIANS HAVE NOT YET PASSED FEDERAL IMMIGRATION EXAM.

OTHERS AHEAD OF THEM AS APPLICANTS FOR ADMISSION TO UNCLE SAM'S PARADISE OF THE PACIFIC—LONE ANARCHIST THREATENS TERRIBLE THINGS AND IS HELD IN JAIL FOR DEPORTATION—IMMIGRANTS MADE THEMSELVES SICK EATING.

The Russian immigrants who yesterday arrived in the Pacific Mail S. S. Siberia in charge of A. Perelstrous and A. L. C. Atkinson, have not yet passed the examination required at the United States Immigration Station, though some of them are likely to be passed today.

This examination is thorough and yesterday afternoon the benefit of such care was manifested in the case of one of the immigrants who is either an anarchist or insane, or both.

He has no kin in the party with which he came from Siberia, and when others were considering their opportunities in regard to obtaining employment in these islands, this particular man defied all law and order in a manner most comprehensive, declaring that he was here to do entirely as he pleased; that he did not care to accept anything in the way of work and that he could not be made to work.

Sam Johnson did the interpreting and to Johnson, who understands the Russian language, the anarchist voiced his ideas very freely, and more than that he endeavored to dissatisfy others of the immigration party, calling on them to create a disturbance and to wreck the immigration station.

"Why he talked of burning the capitol and killing men in authority," said an officer last evening to a Star reporter, "I don't know whether to think he is loose in his upper story or whether he is an anarchist, though I suppose all anarchists are crazy. Anyway his talk was anarchistic and he did his best to get the rest of the immigrants excited. He was handed over to the police on account of it being inconvenient to keep him prisoner at the immigration station and he will likely be kept in prison until the next boat to the Orient when he will be sent back whence he came."

Sam Johnson, in the goodness of his heart, went to the police station last night to make sure that the wild-eyed fanatic had had plenty to eat and that his bodily comforts were being attended to. The officers at the station assured the anxious Sam that his countryman was being well cared for; that he had just put himself outside of a large pot of tea and several slices of bread. The anarchist did not take to pol.

VERDICT AGAINST RAYMOND SET ASIDE

The verdict is set aside and a new trial is granted on the exceptions of defendant in the case of Jim Ah Hoy vs. J. H. Raymond, by a decision of the Supreme Court rendered today. Justice Perry writes the opinion of the court. F. W. Milverton for plaintiff, A. G. M. Robertson for defendant. In the opening of the opinion the case is thus stated:

"Plaintiff claims damages, charging that the defendants unlawfully entered certain premises of the plaintiff situated at Wailuku, Maui, took and converted to their use certain hogs, horses, wagons, weighing machines and other property used by the plaintiff in conducting the business of buying, selling and slaughtering beef cattle and other animals, and excluded the plaintiff from said premises and business and assumed absolute control of the same. At the close of the plaintiff's evidence a nonsuit was granted in favor of the Waterhouse Trust Co., Ltd., and subsequently a jury rendered a verdict for the plaintiff for \$2500 against the remaining defendant. Defendant excepts."

This is the law of the case as condensed in the syllabus:

"Under the agreement, mentioned in the opinion, the plaintiff was not a purchaser from the defendants, but merely their agent to sell beef furnished."

"In an action at law an instrument purporting to be an absolute assignment can not be shown by parol evidence to have been intended as collateral security only."
